Dear Patrons

On August 25th, 2017, Hurricane Harvey made landfall at Rockport, Texas resulting in catastrophic damage. Our schools have been closed indefinitely, electricity is still out and many homes and businesses are damaged beyond repair. We have been overwhelmed by the outpouring of donations and volunteers. A thousand thank yous.

We are looking to the uncertain future. We need to keep our local economy going to survive.

When I started GLOW Seafood Kitchen back in 2011, I was inspired

by the abundance of natural beauty and grit of our neighbors. From the bay sunsets to the windswept oaks, from our local fishermen and fishing guides, there is so much here to be grateful for. Early on at GLOW, we began hand-harvesting sea salt from Aransas Bay, just the way they did when our town was founded almost 150 years ago.

GLOW is a local seafood kitchen that is trying to stay afloat during these turbulent times. Our goal is to provide jobs for our employees and community. For the first time, we are offering these hand-harvested, hand-blended sea salts for sale to help kick start our local economy and put our town back to work. The flavors have been the anchors of our tiny boathouse menu since the beginning. These will be offered on pre-sale and will ship as soon as power is restored. If you are a chef/restaurant/retailer and interested in wholesale or bulk orders, please let us know. Our team is on standby waiting to get your orders out to you.

A portion of the proceeds of our Glow Sea Salts will benefit local ACISD students and help fund our current Glow Student Scholarship program (501c3). We need to continue helping our students and community pursue their goals and keep their dreams alive.

Thank you again for your generosity and help. Details on how to order our beloved sea salt are below. We can do this.

November 2<sup>nd</sup>, 2017

Dear Friend

Thank you for your order of our first batch of Glow Sea Salts. We are up and running after Hurricane Harvey because of your generosity and support. We could not do this without you. As of this printing, only 30% of the businesses in Rockport-Fulton have reopened and there is a long road ahead.

Because of your purchase, a portion of the proceeds of our Glow Sea Salts will benefit local students and help fund our current Glow Rockport Foundation (501c3). We need to continue helping our community pursue their goals and keep their dreams alive. We can do this.

Finally, we really hope you enjoy these flavors chosen for our first production. It was such a labor of love putting them together. On the flip side of this note you will find a description of the Glow Sea Salts and ideas for use. Stay tuned for our next round of flavors. And please...let us know what you think and how you used the sea salts. We'd love to hear your feedback.

Big hugs from all of us at Glow,

Karey Swartwout,
